

Events, Outreach & Chair's Engagements

Website Content Pack and Activity Archive

A structured, event-wise compilation covering official group programs, collaborations, keynotes, panels, expert talks, podcasts, publications, community activity and formation milestones involving IEEE Pune Blockchain Group and its Chair, Dr. Sonali D. Patil.

Prepared for website publishing and historical activity documentation

How to Structure These Activities on the Website

The source material mixes official IEEE Pune Blockchain Group programs with external talks, media appearances, publications and ecosystem promotions. For a credible website archive, those roles should remain distinct. This pack therefore uses a publishing taxonomy that preserves what the supplied posts actually establish.

WEBSITE LABEL	WHEN TO USE IT
Official / flagship group event	Organized by IEEE Pune Blockchain Group or clearly presented as a group program.
Group collaboration	Organized by another institution in association or collaboration with IEEE Pune Blockchain Group.
Chair engagement	Dr. Sonali D. Patil participated as speaker, panelist, guest or conference leader; the event is not automatically a group event.
Podcast / media	Interview, podcast or media conversation featuring the Chair.
Publication / thought leadership	Book or scholarly output, not an event.
Community / ecosystem promotion	Opportunity promoted in the source without evidence that the group organized it.
Milestone	Formation, organizational history or other non-event institutional record.

Editorial rule: use “organized by” only when the source explicitly establishes organizer status. Otherwise use “in association with,” “participated in,” “delivered a session at,” or another role-accurate phrase. One misplaced preposition is apparently all it takes to turn a website archive into historical fiction.

Recommended top-level navigation

- Events - Flagship Events; Faculty Development Programs; Workshops & STTPs; Industry-Academia Programs.
- Leadership & Outreach - Chair's Keynotes; Expert Talks; Panels; International Engagements; Conference Roles.
- Media - Podcasts, interviews and recorded conversations.
- Research & Publications - Books, edited volumes, research highlights and standards-related contributions.
- Community - Partner opportunities and hackathons that are relevant to the ecosystem but not established as group-organized activities.
- About - Group formation, mission and milestones.

Master Event & Activity Index

This index consolidates the supplied posts into 19 unique website records. Posts 15 and 16 refer to the same Blockchain Symposium and are merged into one record. Post 21 contains no event information in the supplied file.

DATE	ACTIVITY	CLASSIFICATION
1-5 Dec 2025	Blockchain for Sustainable Development FDP	Group collaboration / Guest of Honour
19 Sep 2025	Role of Academia in Blockchain Adoption	External panel / Chair engagement
18-25 Aug 2025	Decentralized AI FDP	Official group program
30 Jul 2025 deadline	Blockchain Hackathon - Finance & Web3	Community / ecosystem promotion
20 Mar 2025	Blockchain & Cryptocurrency: Future of Fintech Trends	External invited talk
22 Feb 2025	Evolution of Blockchain and Research Opportunities	Official group program
20-24 Aug 2024	Blockchain: Next Frontier in Cybersecurity and Privacy	Group collaboration
15-20 Jul 2024	Emerging Trends in Blockchain STTP	Group collaboration / STTP
18-22 Mar 2024	SecureChainCityCoin - Blockchain in Smart Cities	Group collaboration / Expert talk
16 Mar 2024	Women in Blockchain - Season V	External community engagement
2 Feb 2024	IEEE Pune Blockchain Group Blockchain Symposium	Flagship group event
2023	IEEE ICBDS 2023 at IIIT Naya Raipur	Conference role & achievement
Not stated	Real World Blockchain Use Cases and Future Trends	Group collaboration / Keynote
Not stated	Podcast: Blockchain, AI & the Future of Education	Podcast / Media
Not stated	Decentralized Healing - edited book	Publication / Thought leadership
Not stated	Automated Vulnerability Detection for Smart Contracts	External expert session
Not stated	Blockchain: Recent Trends and Research Opportunities - UTP Malaysia	International expert talk
Not stated	Relevance of Blockchain and dApps in Current Trends	External FDP talk
Not stated	Formation of IEEE Pune Blockchain Group	Group formation milestone

A. IEEE Pune Blockchain Group Events & Collaborations

These records are either clearly organized by IEEE Pune Blockchain Group or explicitly described as being conducted in association/collaboration with the group.

**GROUP COLLABORATION /
KEYNOTE****Date not stated in source**

Real World Blockchain Use Cases and Future Trends

National-Level FDP: Blockchain Ecosystem - Research, Innovation, Applications, and SDG Integration

ROLE	Keynote speaker - Dr. Sonali D. Patil
ORGANIZER	Department of Information Technology, Marathwada Mitra Mandal's College of Engineering
ASSOCIATION	IEEE Pune Blockchain Group
FORMAT	Faculty Development Program / keynote session

Website-ready description

Dr. Sonali D. Patil delivered a keynote session on real-world blockchain use cases and future trends during a one-week national-level FDP. The session connected practical applications with standards awareness and emerging research directions, giving faculty members, researchers and blockchain enthusiasts a structured view of current adoption and future convergence areas.

Key highlights / topics

- Real-time blockchain use cases
- IEEE Blockchain Standards
- Future trend: Blockchain and Quantum Computing
- Future trend: AI and Blockchain
- Discussion of the transformative impact of blockchain across multiple domains

Recommended website placement

Events > Faculty Development Programs; also cross-list under Leadership & Outreach > Chair's Keynotes.

Event visual(s)

GROUP COLLABORATION /
GUEST OF HONOUR

1-5 Dec 2025

Blockchain for Sustainable Development: Innovations, Applications, and Future Directions

ROLE	Guest of Honour at inaugural session - Dr. Sonali D. Patil
ORGANIZER	Department of Information Technology, MMCOE Pune
ASSOCIATION	IEEE Pune Blockchain Group
DURATION	Week-long Faculty Development Program

Website-ready description

Dr. Sonali D. Patil participated in the inaugural session as Guest of Honour for a week-long FDP conducted in association with IEEE Pune Blockchain Group. In her capacity as Chair of the group, she highlighted the growing interest in blockchain for sustainable development and the value of connecting regional activity with the broader vision of the IEEE Blockchain Technical Community.

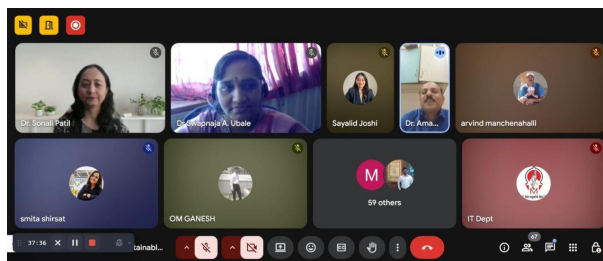

Key highlights / topics

- Blockchain for transparency, trust and sustainability
- Application sectors noted in the source: governance, energy, circular economy and smart ecosystems
- Alignment with the vision of the global IEEE Blockchain Technical Community
- Faculty-oriented learning and discussion on sustainable blockchain applications

Recommended website placement

Events > Faculty Development Programs; feature as an IEEE Pune Blockchain Group collaborative program.

Event visual(s)

Source visual(s) from the supplied post.

Source reference: Post 3, supplied PDF pages 3-5.

OFFICIAL GROUP PROGRAM

18-25 Aug 2025

One-Week Faculty Development Program on Decentralized AI

ORGANIZER	IEEE Pune Blockchain Group and Pimpri Chinchwad College of Engineering, Pune
COLLABORATORS	IEEE Pune Section; IEEE Computer Society Pune Chapter; IEEE Blockchain Technical Community
MODE	Online
CHAIR PARTICIPATION	Dr. Sonali D. Patil listed among the expert speakers

Website-ready description

A one-week online Faculty Development Program focused on the convergence of decentralized systems and artificial intelligence. The program was positioned around secure and collaborative AI, bringing together experts from academia and industry to discuss emerging architectures and technologies spanning AI, Web3 and blockchain.

Key highlights / topics

- AI and Decentralized AI
- Agentic Web
- Multiagent Collaboration
- Web3 and Blockchain
- Federated Learning
- Verifiable AI
- Decentralized, secure and collaborative technology models

People / speakers recorded in the source

Anantha R K. - Founder & CEO, Sarva Labs; Dr. Rajesh Ingle - Vice Chancellor, DES Pune University and Chair, IEEE Computer Society Chapter Pune; Kamlesh Nagware - Blockchain Architect, Founder, FSV Lab; Ravikant Agrawal - Director, Privado ID; Vidy Potdar - Director, Blockchain Research & Development Lab, Curtin University, Australia; Dr. Sonali D. Patil - Professor and Head, Computer Engineering, PCCOE, Chair, IEEE Pune Blockchain Group; Ankita Patidar - Tech Lead, AYANWORKS and Co-Chair, Hyperledger India Chapter.

Recommended website placement

Events > Faculty Development Programs; suitable as a featured collaborative learning program.

Event visual(s)

Source visual(s) from the supplied post.

Source reference: Post 5, supplied PDF page 9.

OFFICIAL GROUP PROGRAM

22 Feb 2025

Evolution of Blockchain and Research Opportunities

One-Week FDP: Research Directions in Information Security and Blockchain

ROLE	Expert session by Dr. Sonali D. Patil
ORGANIZER	IEEE Pune Blockchain Group and Department of Computer Engineering, PCCOE Pune
PROGRAM	One-week Faculty Development Program
AUDIENCE	Faculty members and researchers

Website-ready description

Dr. Sonali D. Patil delivered a session on the evolution of blockchain and research opportunities as part of a one-week FDP jointly organized by IEEE Pune Blockchain Group and the Department of Computer Engineering, PCCOE Pune. The session focused on emerging research directions at the intersection of blockchain and cybersecurity.

Key highlights / topics

- Evolution of blockchain technology
- Current and emerging blockchain research opportunities
- Cybersecurity and information-security research intersections
- Emerging trends, challenges and future research directions

Recommended website placement

Events > Faculty Development Programs; cross-list under Leadership & Outreach > Chair's Expert Sessions.

Event visual(s)

Source visual(s) from the supplied post.

Source reference: Post 9, supplied PDF page 13.

GROUP COLLABORATION

20-24 Aug 2024

Blockchain: The Next Frontier in Cybersecurity and Privacy

ROLE	Session delivered by Dr. Sonali D. Patil
ORGANIZER	Marathwada Mitra Mandal College of Engineering (MMCOE)
COLLABORATION	IEEE Pune Blockchain Group
DURATION	One-week Faculty Development Program

Website-ready description

IEEE Pune Blockchain Group collaborated with MMCOE on a one-week FDP focused on blockchain as an emerging frontier in cybersecurity and privacy. Dr. Sonali D. Patil delivered a session during the program. The source frames the activity as part of the group's continuing effort to support blockchain education and cross-organization collaboration.

Key highlights / topics

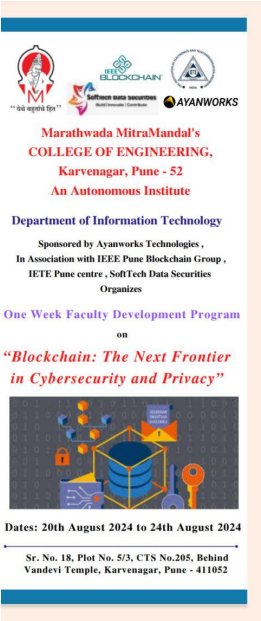

- Blockchain in cybersecurity
- Privacy-oriented blockchain applications
- Academic and professional capacity building
- Collaboration with external institutions to advance blockchain activities

People / speakers recorded in the source

The post specifically thanks Dr. Ramesh Ramadoss, Chair - IEEE Blockchain, and Dr. Surekha Deshmukh, Chair - IEEE Pune Section, for encouragement and support.

Recommended website placement	Events > Faculty Development Programs; list as an IEEE Pune Blockchain Group collaborative event.
-------------------------------	---

Event visual(s)

Source visual(s) from the supplied post.

Source reference: Post 11, supplied PDF page 15.

GROUP COLLABORATION / STTP

15-20 Jul 2024

ISTE-Approved 6-Day STTP on Emerging Trends in Blockchain

ORGANIZER	Computer Engineering Department, PCCOE and Computer Engineering - Regional Department, PCCOE
ASSOCIATION	IEEE Pune Blockchain Group
DURATION	6 days
PARTICIPATION	153 participants from various states across India

Website-ready description

A six-day ISTE-approved Short-Term Training Program on Emerging Trends in Blockchain was conducted at PCCOE in association with IEEE Pune Blockchain Group. The program combined conceptual discussions with demonstrations and practical, real-time blockchain use cases and drew participants from multiple states across the country.

Key highlights / topics

- Insightful technical discussions
- Practical demonstrations
- Real-time blockchain use cases
- National-level participation
- Support acknowledged from IEEE Blockchain, IEEE Pune Professional Chapter and CDAC Mumbai

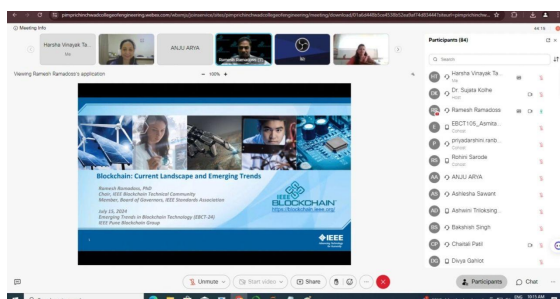

People / speakers recorded in the source

Acknowledgements recorded in the source include PCET Management; Executive Director PCET Dr. Girish Desai; Director PCCOE Dr. Govind Kulkarni; Deputy Director PCCOE Dr. N. B. Chopade; Dr. Ramesh Ramadoss; Dr. Surekha Deshmukh; Dr. Padmaja Patwardhan Joshi; and Kamlesh Nagware, along with the speakers, participants and organizing team.

Recommended website placement

Events > Workshops & STTPs; highlight the 153-participant national reach.

Event visual(s)

Source visual(s) from the supplied post.

GROUP COLLABORATION /
EXPERT TALK

18-22 Mar 2024

SecureChainCityCoin: A Convergence of Blockchain in Smart Cities

ROLE	Expert talk delivered by Dr. Sonali D. Patil
PROGRAM	National-level one-week FDP
ASSOCIATION	IEEE Pune Blockchain Group and SoftTech Data Securities
HOST REFERENCE	Team MMCOE is congratulated in the source

Website-ready description

Dr. Sonali D. Patil delivered a talk titled SecureChainCityCoin: A Convergence of Blockchain in Smart Cities during a national-level one-week FDP. The activity was conducted in association with IEEE Pune Blockchain Group and SoftTech Data Securities, with the post recognizing the successful organization by Team MMCOE.

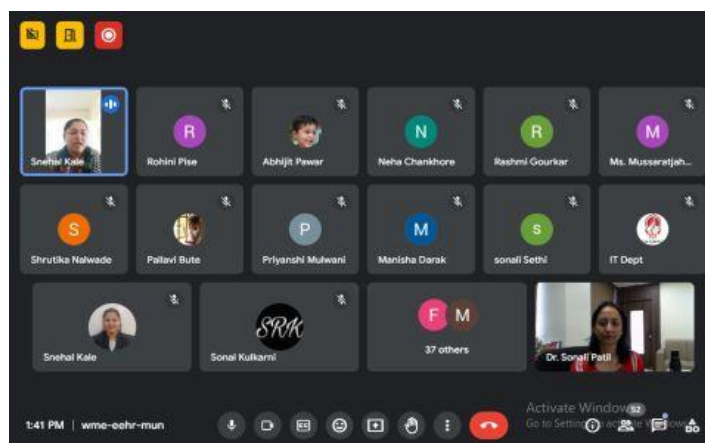

Key highlights / topics

- Blockchain for smart-city systems
- Convergence of decentralized technology with urban digital infrastructure
- Academic capacity building through a national-level FDP

Recommended website placement

Events > Faculty Development Programs; cross-list under Leadership & Outreach > Chair's Expert Sessions.

Event visual(s)

Source visual(s) from the supplied post.

Source reference: Post 13, supplied PDF page 17.

FLAGSHIP GROUP EVENT

2 Feb 2024

IEEE Pune Blockchain Group Blockchain Symposium 2024

ORGANIZER	IEEE Pune Blockchain Group
COLLABORATION	IEEE Pune Section
VENUE	Pimpri Chinchwad College of Engineering, Pune
COORDINATOR	Dr. Sonali Patil - Chair, IEEE Pune Blockchain Group

Website-ready description

The Blockchain Symposium brought together experts from academia and industry for a focused day of technical exchange at PCCOE Pune. The source records sessions, panel discussions, demonstrations, proof-of-concept showcases and practical use-case conversations, positioning the symposium as a flagship activity of IEEE Pune Blockchain Group.

Key highlights / topics

- Technical sessions across the blockchain landscape
- Panel discussions
- Demonstrations and PoCs
- Real-world use cases
- Networking and collaboration among speakers, participants and volunteers
- Special thanks recorded to PCET Management and Director PCCOE for guidance and support

People / speakers recorded in the source

Speakers named in the source: Dr. Ramesh Ramadoss; Dr. Surekha Deshmukh; Dr. Rajesh Ingle; Dr. Krishna Murthy Bulusu; Dr. Padmaja Patwardhan Joshi; Kamlesh Nagware; Pavan Adhav; Shreekant Kulkarni; Shruti Kulkarni; Vishnu Korde; Priyanshu Pareek; Mehul Gaidhani; Atharv Sabnis. The event poster identifies Dr. Sonali Patil as Chair, IEEE Pune Blockchain Group and Coordinator.

Recommended website placement

Events > Flagship Events. Use as the primary historical showcase for the group, with gallery images and the speaker poster.

Links recorded in the source

Registration link recorded in promotional post: <https://lnkd.in/d2cdQX7v>

Event visual(s)

Source visual(s) from the supplied post.

Source reference: Posts 15 and 16, supplied PDF pages 19-21. These two posts describe the same symposium (recap + promotion) and are consolidated here.

B. Chair's Talks, Panels, Conference Roles & Global Engagements

These activities feature Dr. Sonali D. Patil in a professional speaking, panel, conference or international-outreach role. They should not be labeled as IEEE Pune Blockchain Group-organized activities unless additional evidence establishes that relationship.

EXTERNAL PANEL / CHAIR
ENGAGEMENT

19 Sep 2025

Role of Academia in Blockchain Adoption

ROLE	Panel Member - Dr. Sonali D. Patil
ORGANIZERS	Linux Foundation Decentralized Trust India Chapter; Citi India; India Blockchain Forum
VENUE	Citi, EON IT Park, Pune
RELATED ROLE	Member of the Finance Hackathon planning team

Website-ready description

Dr. Sonali D. Patil participated as a panel member in a discussion on the role of academia in blockchain adoption. The program connected academic, startup and enterprise perspectives and was held at Citi's EON IT Park location in Pune.

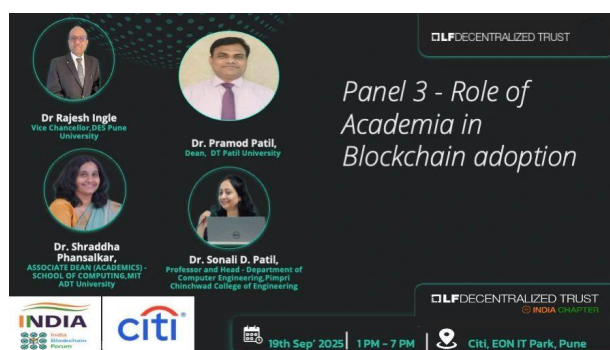

Key highlights / topics

- Panel discussion on academia's role in blockchain adoption
- Finance Hackathon planning involvement
- 1000+ participants and 250+ teams reported in the source
- Participation from academia, startups and multinational companies
- Program included a finale, keynote session, expert talks and panel discussions

Recommended website placement

Leadership & Outreach > Panels & Industry-Academia Engagements. Do not label this as an IEEE Pune Blockchain Group-organized event unless separate records establish that role.

Event visual(s)

Source visual(s) from the supplied post.

Source reference: Post 4, supplied PDF pages 6-8. The 19 Sep 2025 date is visible on the event graphic.

EXTERNAL INVITED TALK

20 Mar 2025

Blockchain & Cryptocurrency: The Future of Fintech Trends

ROLE	Invited speaker - Dr. Sonali D. Patil
EVENT	7th International Symposium on Innovative Global Technology Trends
ORGANIZER	College of Management, MIT-ADT University
LOCATION	MIT-ADT University, Pune region

Website-ready description

Dr. Sonali D. Patil delivered a session on blockchain and cryptocurrency at the 7th International Symposium on Innovative Global Technology Trends. The talk discussed the evolving blockchain landscape, its influence on the financial sector and its future potential in fintech.

Key highlights / topics

- Blockchain and cryptocurrency
- Fintech trends
- Impact of blockchain on the financial sector
- Future potential and emerging technology landscape

Recommended website placement

Leadership & Outreach > Invited Expert Talks.

Event visual(s)

Source visual(s) from the supplied post.

Source reference: Post 8, supplied PDF pages 11-12.

EXTERNAL EXPERT SESSION

Date not stated in source

Automated Vulnerability Detection for Smart Contracts in Blockchain

ROLE	Expert speaker - Dr. Sonali D. Patil
PROGRAM	AICTE-sponsored ATAL Faculty Development Program
FDP TITLE	Navigating the Future of Decentralized Advanced Blockchain Technologies
VENUE	Fr. Conceicao Rodrigues College of Engineering (FCRCE), Bandra (W), Mumbai

Website-ready description

Dr. Sonali D. Patil delivered an expert session on automated vulnerability detection for blockchain smart contracts during an AICTE-sponsored ATAL FDP on advanced decentralized blockchain technologies.

Key highlights / topics

- Smart-contract security
- Automated vulnerability detection
- Advanced decentralized blockchain technologies
- Faculty development and technical capacity building

Recommended website placement

Leadership & Outreach > Invited Expert Talks. The supplied post does not establish IEEE Pune Blockchain Group as organizer or collaborator.

Event visual(s)

Source visual(s) from the supplied post.

Source reference: Post 10, supplied PDF page 14.

**EXTERNAL COMMUNITY
ENGAGEMENT****16 Mar 2024 | 10:00 AM-5:20 PM IST**

Women in Blockchain - Season V, 2024

ROLE	Dr. Sonali D. Patil featured among women professionals in the program
HOSTS	Hyperledger India Chapter and Hyperledger Foundation
FORMAT	Panel discussions, research presentations, fireside chats and networking
SCOPE	Global women-in-blockchain community program

Website-ready description

Dr. Sonali D. Patil was included among the women professionals featured in Women in Blockchain Season V, hosted by the Hyperledger India Chapter and Hyperledger Foundation. The program celebrated women working across technical and non-technical areas of blockchain and combined research, discussion and networking formats.

Key highlights / topics

- Eminent women working in blockchain, technical and non-technical
- Research presentations
- Panel discussions
- Fireside chats
- Networking with blockchain professionals from around the world

People / speakers recorded in the source

The source names Deepika Karanji, Ritu Jain, Anasuya Threse Innocent, Nidhi Singh, Kartikey Kashyap, Kamlesh Nagware, Vikram Sharma, Ravi Pratap S. and Aditya Joshi among leading Hyperledger India Chapter members inviting participation. The featured participant list shown in the source includes Ankita Patidar, Anuhya Gandavaram, Anuja Dhopate, Deepika Karanji, Dr. Minakshi Rajput, Dr. Sonali D. Patil, Padmavathi U, Dr. Vinu Sherimon, Anasuya Threse Innocent, Umadevi K.S, Garima Singh, Gauranshi Gupta, Gia Mattu, Hena Venugopal, Lekshmi M B, Megha Shukla, Magdalena Kubica, Nandhitha Ramalingam, Nidhi Singh, Poonam Kumari, Priyanka Tewari, Ritu Jain, Sheetal Gupta, Srithi Assudani, Sneha Vijayan and Tanvi Ratna.

Recommended website placement

Leadership & Outreach > Community & Diversity Engagements. Attribute hosting to Hyperledger India Chapter and Hyperledger Foundation.

Links recorded in the source

Registration link recorded in source: <https://lnkd.in/gPpZu48N>

Event visual(s)

CONFERENCE ROLE & ACHIEVEMENT**2023 (exact date not stated)**

IEEE ICBDS 2023 at IIIT Naya Raipur

ROLE	Tutorial Chair; Session Chair; Paper Author
ACHIEVEMENT	Best Paper Award
VENUE	IIIT Naya Raipur
THEME	Blockchain-focused IEEE conference engagement

Website-ready description

At IEEE ICBDS 2023, Dr. Sonali D. Patil served in multiple scholarly roles, including Tutorial Chair and Session Chair, contributed as a paper author and received a Best Paper Award. The source emphasizes research interaction and discussions with experts in the blockchain field.

Key highlights / topics

- Tutorial Chair responsibility
- Session Chair responsibility
- Paper authorship
- Best Paper Award
- Interaction with blockchain experts and research community

Recommended website placement

Leadership & Outreach > Conferences & Recognition or Research > Awards & Conference Roles.

Event visual(s)

Source visual(s) from the supplied post.

Source reference: Post 17, supplied PDF pages 21-22.

INTERNATIONAL EXPERT TALK

Date not stated in source

Blockchain: Recent Trends and Research Opportunities - Universiti Teknologi PETRONAS, Malaysia

ROLE	Expert talk / research interaction - Dr. Sonali D. Patil
INSTITUTION	Universiti Teknologi PETRONAS (UTP)
COUNTRY	Malaysia
AUDIENCE	Ph.D. research scholars

Website-ready description

Dr. Sonali D. Patil shared insights with Ph.D. research scholars at Universiti Teknologi PETRONAS in Malaysia on recent blockchain trends and research opportunities. The engagement is well suited to an international-outreach section because it demonstrates research interaction beyond the local Pune ecosystem.

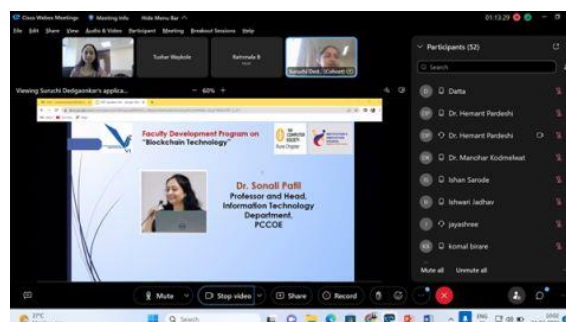

Key highlights / topics

- Recent trends in blockchain
- Research opportunities
- Interaction with Ph.D. scholars
- International academic outreach

Recommended website placement

Leadership & Outreach > International Engagements.

Event visual(s)

Source visual(s) from the supplied post.

Source reference: Post 19, supplied PDF pages 22-23.

EXTERNAL FDP TALK

Date not stated in source

Relevance of Blockchain and dApps in Current Trends

ROLE	Session delivered by Dr. Sonali D. Patil
PROGRAM	One-week Faculty Development Program
ORGANIZER	Vishwakarma Institute of Information Technology
ASSOCIATION	IEEE Computer Society, Pune Chapter

Website-ready description

Dr. Sonali D. Patil delivered a session on the relevance of blockchain and decentralized applications (dApps) in current technology trends during a one-week FDP organized by Vishwakarma Institute of Information Technology in association with IEEE Computer Society Pune Chapter.

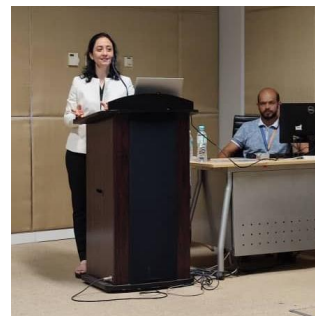

Key highlights / topics

- Blockchain relevance in current technology trends
- Decentralized applications (dApps)
- Faculty development and emerging technology awareness

Recommended website placement

Leadership & Outreach > Invited Expert Talks. The supplied post associates this FDP with IEEE Computer Society Pune Chapter, not IEEE Pune Blockchain Group.

Event visual(s)

Source visual(s) from the supplied post.

Source reference: Post 20, supplied PDF page 23.

C. Podcast, Publication & Thought Leadership

Media and scholarly outputs are best published in dedicated sections rather than mixed into the event archive.

PODCAST / MEDIA

Date not stated in source

Podcast: Blockchain, AI & the Future of Education

Visual title in the supplied post: **Blockchain & Education**

GUEST	Dr. Sonali D. Patil
FORMAT	Podcast / expert conversation
THEMES	Blockchain, AI, education, decentralized identity and student innovation
SOURCE CREDIT	The source post includes #AkshayKurhekar

Website-ready description

In this expert conversation, Dr. Sonali D. Patil discussed how blockchain, artificial intelligence and education intersect to shape trusted digital systems and student innovation. The discussion connected technology adoption with practical learning and the mindset required for sustained innovation.

Key highlights / topics

- Using blockchain to reduce fraud
- Building trustworthy AI systems with decentralized identity
- Continuous learning and practical experience
- Hackathons as learning accelerators
- Technology alone is not enough; learning, questioning and building are essential to innovation
- Relevance to students, developers, educators and technology enthusiasts

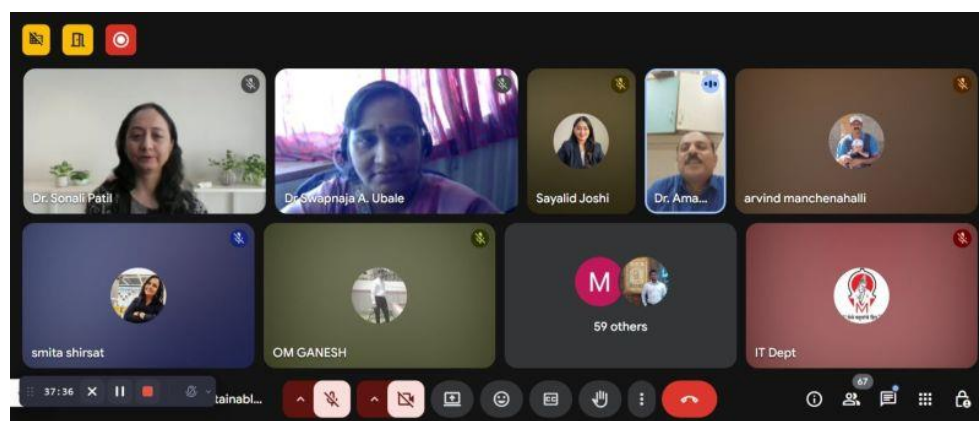

Recommended website placement

Media > Podcasts & Interviews. This should be presented as a media engagement, not as an IEEE Pune Blockchain Group-organized event unless separate evidence establishes that role.

Links recorded in the source

Full podcast link recorded in source: <https://lnkd.in/gUJyYtj>

Event visual(s)

Source visual(s) from the supplied post.

Source reference: Post 2, supplied PDF pages 2-3.

PUBLICATION / THOUGHT
LEADERSHIP

Date not stated in source

Decentralized Healing: Transforming Healthcare with Federated Learning and Blockchain Technologies

TYPE	Edited book
PUBLISHER	CRC Press, Taylor & Francis Group
EDITORS	Sonali Dhananjay Patil; Rajesh Ingle; Amar Buchade; Vidy Potdar
DOMAIN	Federated learning, blockchain and healthcare

Website-ready description

The edited book brings together interdisciplinary perspectives on how federated learning and blockchain can reshape healthcare through security, privacy and decentralized control in data-driven medical systems. The source presents the publication as a collaborative scholarly contribution to an emerging field.

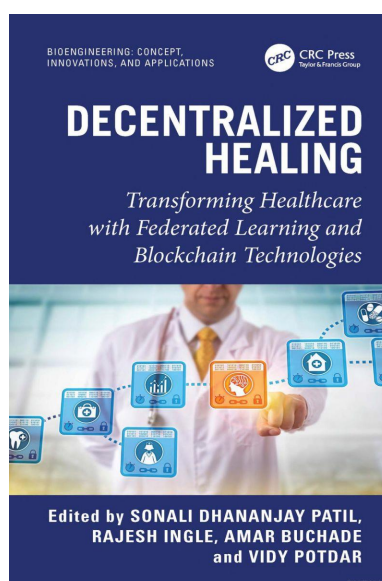

Key highlights / topics

- Federated learning in healthcare
- Blockchain in healthcare
- Security and privacy
- Decentralized control of data-driven medical systems
- Interdisciplinary research and collaboration

Recommended website placement

Research & Publications > Books / Edited Volumes; optionally cross-link from Leadership & Outreach > Thought Leadership.

Event visual(s)

Source visual(s) from the supplied post.

Source reference: Post 6, supplied PDF pages 9-10.

D. Community Opportunity & Group Milestone

The final records capture a promoted ecosystem opportunity and the organizational formation milestone that gives context to the activity archive.

**COMMUNITY / ECOSYSTEM
PROMOTION****Registration deadline: 30 Jul 2025**

Blockchain Hackathon - Finance and Web3 Innovation

ACTIVITY	Community opportunity promoted in the source
FOCUS	Blockchain, DeFi, CBDCs, RWAs and Compliance Tech
COMMUNITY REFERENCE	Blockchain CoP Consensus Circle
IMPORTANT CLASSIFICATION	Source does not establish IEEE Pune Blockchain Group as organizer

Website-ready description

The source promotes a high-impact blockchain hackathon focused on building practical solutions across decentralized finance and emerging financial infrastructure. Because the supplied post does not establish IEEE Pune Blockchain Group as organizer, this item should be presented as a community opportunity or ecosystem highlight rather than a group event.

Key highlights / topics

- Blockchain solutions
- DeFi
- Central Bank Digital Currencies (CBDCs)
- Real-World Assets (RWAs)
- Compliance technology
- Finance-focused innovation

People / speakers recorded in the source

The source mentions Blockchain CoP | Consensus Circle, LF Decentralized Trust India Chapter, Kamlesh Nagware, Prasanna Lohar, Garima Singh, Yogesh Karandikar and Dr. Deepankar Roy.

Recommended website placement

Community > Opportunities & Hackathons. Keep separate from the official IEEE Pune Blockchain Group event archive.

Links recorded in the source

Registration link recorded in source: <https://lnkd.in/gtQQiXpG>

Event visual(s)

Source visual(s) from the supplied post.

Source reference: Post 7, supplied PDF pages 10-11.

GROUP FORMATION MILESTONE**Formation announcement - exact date not stated in source**

Formation of the IEEE Pune Blockchain Group under IEEE Blockchain Region 10 Asia-Pacific

CHAIR	Prof. Dr. Sonali Patil
REGION	IEEE Region 10 - Asia-Pacific
MISSION	Networking, learning, sharing and advancing technology
PLANNED ACTIVITIES	Meetups, events, lectures, seminars, workshops and related activities - in person or virtual

Website-ready description

The formation announcement states that the IEEE Pune Blockchain Group was created under IEEE Blockchain Region 10 Asia-Pacific to bring together professionals interested in networking, learning, knowledge sharing and advancement of blockchain technology. The group's intended activity model includes technical and professional events in both physical and virtual formats.

Key highlights / topics

- Professional networking and collaboration
- Learning and knowledge sharing
- Advancing blockchain technology
- Meetups, events, lectures, seminars and workshops
- Support and approval acknowledged from Dr. Ramesh Ramadoss, Chair - IEEE Blockchain, and Dr. Surekha Deshmukh, Chair - IEEE Pune Section

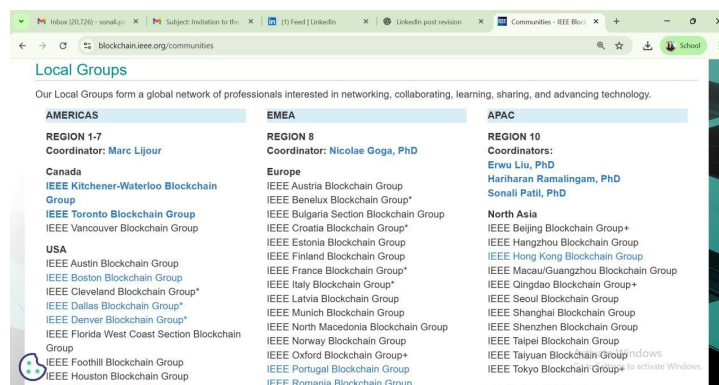

Recommended website placement

About > History / Milestones. This should anchor the activity archive and explain the group's purpose before visitors browse individual events.

Links recorded in the source

Local group link recorded in the source: <https://lnkd.in/dXXMa2wt>

Event visual(s)

Supporting visual from the supplied compilation showing the IEEE Blockchain local-groups listing.

Source reference: Post 18, supplied PDF page 22; supporting local-groups visual appears earlier in the supplied compilation.

Recommended Website Record Template

For consistency across future updates, each activity page or card can use the following field structure. This keeps event history searchable and prevents organizer, speaker and partner roles from getting flattened into the same thing.

FIELD	PUBLISHING GUIDANCE
Title	Official or source-supported event/activity title.
Date	Exact date or range. If unavailable, do not invent one; use "Date not stated".
Category	Flagship Event, FDP, STTP, Expert Talk, Panel, Podcast, Publication, Community Opportunity or Milestone.
Role	Organizer, collaborator, keynote speaker, panel member, Guest of Honour, coordinator, author/editor, etc.
Organizer(s)	Organization(s) explicitly stated as organizer/host.
Association / Partners	IEEE units, institutions, companies or communities explicitly named as collaborators or associations.
Venue / Mode	Physical venue, city, online mode or hybrid mode where supported.
Summary	80-150 word website-ready description focused on purpose, role and outcome.
Key Topics	3-7 searchable technology or research topics.
People / Speakers	Speaker list or relevant leaders where available.
Media	1-4 event photos/posters with descriptive captions.
External Link	Registration, podcast or local-group link when recorded.
Source Reference	Original post number and page in the archival source compilation.

Suggested card format

[Date] | [Category]

[Event Title]

[Role + organizer/association]

[2-3 sentence summary]
